

# AccountManager™ 365

AccountManager 365 puts the power of AccountManager™ right where you want it, in your in-box. Based on the Microsoft® Office 365 platform, AccountManager 365 provides the full Office suite of products and services as well as a set of add-in's and applications developed by Empowering Systems that provides integration with AccountManager CRM.

Easily create, update and manage activities, opportunities, contacts and accounts right from Outlook. Time saving smart search finds the documents related to the email you are currently viewing so you can take the action required. Turn an email into a contact or opportunity. Use drag and drop to update activities and opportunities. Find related information easily by filtering based on the email sender, company and more.

- Make updates from your Microsoft Office 365 Outlook in-box
- Click on an email and let smart search find related documents
- Contacts, Accounts, Action Items and Opportunities
- Drag and drop email content for instant updates
- Always have access to the Company Calendar
- Take advantage of Microsoft SharePoint and Teams
- Cloud based contact synchronization
- Available on your desktop, laptop, tablet, or phone
- Comes with all the Office apps (Word, Excel, PowerPoint, and more)
- Email Hosting (50GB per user) with your own domain name
- OneDrive (1TB storage)
